Which three statements bests describes the evolving IM&G mindset?

✓ Correcto

☐ You can't govern what you don't understand, therefore you should manage and govern all of your data

☑ You can't govern what you don't understand, and you can't manage & govern everything all the time (nor should you)

☐ An advanced analytics ecosystem can not help govern your data and is something that is designed for Marketing teams

☑ A common architecture and technology framework that allows customers to address current and future needs is a more strategic solution

☑ An advanced analytics ecosystem will help minimize data gravity and deliver greater flexibility, lower risk and cost, ROI, and maximum value
